Jeff:

My only comment to this would be to evaluate how federal land disposal restrictions may or may not apply or any other RCRA requirements. Also, if you guys could check to make sure the Wink Eng. Data is included in the flex viewer. Also, I would like weekly email updates on progress and funds expended. I am going to add an additional amount of money to the TDD as a contingency but do not dip into this without talking to me first. I need your guys to be be wise in the use of these funds.

Thanks

Per our conference call today, Weston will follow up with the action items listed below.

David Bordelon and Jeff Wright to:

- Contact Janine Latham to ensure that the Region 6 RSL and LA RECAP Standards are uploaded into Flex View (to be completed by 5/11)
- Begin reviewing disposal technologies and associated costs (including In-situ solidification)
  - o To include some RECAP assumptions and Input from Weston's David Miller
  - o Review Louisiana's in-situ solidification requirements
  - o Contact LDEQ John Hawke to verify state land disposal restrictions
- Identify data gaps in existing data

Michelle Brown to:

- Begin compiling Sampling Strategy for Site Assessment and HRS Scoring (Due approx. 6/1)

Once sampling strategy has been identified, EPA and Weston will review to determine if additional site characterization or extent of contamination samples are required.
